

ABOUT US

The Equestrian Index - The search engine for the Equine Industry!

The Equestrian Index is here to assist with and maintain your brand and business awareness with equestrian consumers - as consumers continue to increase their research time on niche digital platforms, The Equestrian Index puts your brand directly in front of potential customers when they are making their buying decisions and we aim to enable consumers to make more informed choices about what, why and whom they engage with in the sector.

The Equestrian Index continues to grow its user base by effectively marketing to a wide consumer and business audience via exhibitions and events, sponsorship, collaboration, social media and press advertising both nationally and internationally.

If your business sells to Equestrians, then The Index is for you.

"The best single access point to search, research and reach the entire equestrian sector"

"Marketeers today
have two options: make
content visible, or allow it
to become lost in the jungle. To
make their way through the thicket
of blogs, videos, and infographics,
effective marketeers use niche sites
to zero in on their target audience."
